

Top Sec

8 Mar 55 with Zeller -

1) Why separate operating group at Bremerhaven to work on merchant shipping under U.S. Navy (ONI wants it that way) when there is a [redacted] ?
 No firm decision yet to do it that way. Zeller thinks NSA took weak position (90 + 06 [under some]). This problem under consid for a year. [redacted] proposed joint endeavor initially - Shinn turned down - but problem taken up again when Z was in Wash in December.

2) Naval Party going well. Z thinks [redacted] learned more than we
 Question of speed + accuracy of reporting

3) Should be NSA rep in hdn (reporting to ~~the~~ [redacted]) for liaison (on C/Sec matters) with [redacted]. (Dr. Tracer deals with tech details only; Idm man should be for policy matters with [redacted] et al. Z feels great deal remains to be done in C/Sec field. At one time Canine agreed to get [redacted] accredited to [redacted] but this seems to have been killed on a staff level in NSA. It wound up the [redacted] representing US to [redacted]. This causes confusion + lack of info - as witness what happened on Ft. C/Sec matter.

PL 86-36/50 USC 3605

EO 3.3(h)(2)

4) See if (a) somebody in NSA HQ who should keep [redacted] informed + (b) get on distrib of USCIB minutes for matters of interest to [redacted]. Somebody in P/P probably should do this.
