

Zug, March 10th 1955 Jell, Sn

Mr. S.P. Friedman
 c/o Colonel B.S. Tulling
 Flat 507
 No. 7 North Audley St.
London, W.1, England

Dear Mr. Friedman,

I am glad to send you here enclosed our proposals for the machines C-52 and CX-52.

Regarding the CX-52 the total amount will be about £ 650 higher than before. This is due to the larger quantity of extra type-wheels with rearrangeable letters and types.

But it is my opinion that with this arrangement you will get much better use of the machines.

The new proposal for the C-52 machines is about £ 3'400 lower than the original proposal. The main reason for this is a smaller quantity of key-wheel groups and pin-disks.

Will you please note that the C-52 are equipped with type-wheels with removable letters and types and also with one extra set for each machine.

My grandfather died last Friday March 4th, and my father will be back at Zug on March 16th. We would, of course, be glad if you could arrange to pay us again a visit at Zug.

I remain, with best regards from Edith and myself,

sincerely yours

Bc.
