

Serial: N0965
20 March 1961

Major General D. P. Graul, USAF
Commander
Rome Air Development Center
United States Air Force
Griffiss Air Force Base, New York

Dear General Graul:

I wish to thank you very much indeed for your kind invitation of 15 March to attend the demonstrations at the Stromberg-Carlson Plant in Rochester on 27 and 28 March. I regret very much that my schedule will not permit me to be away at that time.

I propose that Messrs Robert O. Alde, John A. Smith, and Charles E. Biele will be on hand to represent NSA. Mr. Biele is the NSA project officer assigned to the GLR-1 development.

I hope that all goes well with the development of the GLR-1 and that it does fulfill your expectations. It is certainly needed in the field.

Sincerely,

cc: DIR ~~SECRET~~
