

March 26, 1943

First Lt. Leonard Tornheim
Headquarters 15th Ordnance Maintenance Bn.
Camp Gordon, Georgia

Dear Lt. Tornheim:

In response to your letter of March 19, I have to tell you that it is not the policy of the Military Personnel Branch to communicate directly with personnel outside of the Signal Corps on matters pertaining to reassignment. However, it is possible for you to initiate a request for transfer to this station by writing a letter to your commanding officer indicating your desire. At the present time we are over strength as regards officers and I doubt very much whether a request for transfer to this station would be favorably received by the Commander. However, it might be that your special qualifications would be useful some time in the near future and the situation might be affected by what we know of your background. With a view to learning something of your background, I am enclosing herewith quite informally a questionnaire that we use for civilian personnel, but it contains the type of information which would be useful should your case come up. I suggest that you complete the questionnaire and send it personally to me. After I have looked it over I may be in a better position to advise you.

Very truly yours,

William F. Friedman
Director of Communications
Research

Headquarters 15th Ordnance
Maintenance Battalion
Camp Gordon, Georgia
March 19, 1943

Mr. Friedman
Director, Communications Research
Arlington Hall Station
Arlington, Virginia

Dear Mr. Friedman:

About five weeks ago I wrote to you, inquiring about openings in cryptanalysis. In my present capacity and ever since receiving my commission I have made negligible use of my training. I received a Ph.D. in mathematics, with emphasis on algebra, in 1938 from the University of Chicago. I am able to read technical German and French.

Professor Albert of the university recommended that I apply for a transfer to cryptanalysis. Any information you may send regarding openings available and methods of transfer will be appreciated.

Yours sincerely,

Leonard Tornheim
Leonard Tornheim, 1st Lt.

January 30, 1943

Professor Adrian Albert
Department of Mathematics
The University of Chicago
Chicago, Illinois

Dear Professor Albert:

I find that we did not send a questionnaire to Lieutenant Tornheim. Our personnel section did not notify me to that effect. The reason is that under present regulations we are not permitted to establish direct contact with anybody in the military service for the purpose of effecting a transfer. However, I see no reason why Lt. Tornheim should not, if he so desires, initiate a request for transfer. There are normal channels for this sort of thing and all he has to do is to apply for transfer for duty at Arlington Hall Station.

I note what you say concerning your increased duties and the necessity for discontinuing your cryptanalytic studies. Sometime later you may find yourself in a position to complete Cryptanalysis IV.

With best regards, I am

Sincerely yours,

William F. Friedman
Director, Communications
Research

The University of Chicago

Department of Mathematics

January 21, 1943

Mr. W. F. Friedman,
Head Cryptanalyst,
War Department,
Office of the Chief Signal Officer,

Dear Friedman:

In your letter of November 25, 1942 you stated that you were having a questionnaire sent to Fornheim. I have just received a letter from him stating that he has still not received the questionnaire. I hope that you will still consider the possibility of having him join your group. His present address is:

Lieut. Leonard Fornheim,
Headquarters and Headquarters Detachment,
15th Ordnance Maintenance Battalion,
Camp Gordon, Georgia.

My teaching load here has been increased and it seems to me that I had better confine my efforts to work in mathematics. I have therefore discontinued my study of Cryptanalysis IV. By the way, we have been informed of the appointment of C.A. Rupp as a Captain with your group. I hope he makes a good cryptanalyst. He was never a mathematician.

Very cordially yours,

Adrian Albert

Mr. Friedman
Director, Communications Research
Arlington Hall Station
Arlington, Virginia

Dear Mr. Friedman:

I have been informed by Professor A. A. Albert of the University of Chicago that personnel are needed in crypt-analysis. I have a Ph.D. in mathematics, with emphasis on algebra, from the University of Chicago, obtained in 1938. I am indeed anxious to find a position where my training and knowledge can be applied, for that is certainly not the case in my present duty.

Will you please send me details about the qualifications desired, the type of training and the openings available, the procedures whereby transfer may be effected, and any other information you think will be helpful to me.

Yours sincerely,

Leonard Tornheim
Leonard Tornheim
1st Lt., Ord. Dept.

SYNOPSIS OF OFFICER'S QUALIFICATIONS

NAME: Tornheim, Leonard, 1st Lieut., AUS, O-1548325
Born: August 20, 1915. Father born in Palestine & Mother born in Poland. Both naturalized.
