FINAL
~~TENTATIVE~~

EO 3.3(h)(2)
PL 86-36/50 USC 3605

SUBJECT NUMBER

USCIB: 29.13/6   Item 4 of the Agenda for the 21st Meeting of USCIBEC,
held on 22 October 1954.

Subject: [   ] (USCIB 29.13/3;
USCIB 29.13/4).

   (Note: While this item is reported separately, the members
   of USCIBEC were agreed that it has a direct bearing on the
   succeeding item (Item 5) and, accordingly considered the
   two items together.)

   THE CHAIRMAN introduced USCIB 29.13/3 for discussion and reviewed
the vote sheet replies to it as contained in USCIB 29.13/4. He
suggested that if the members were willing to agree upon deletion of
subparagraphs 2c and 2d of the enclosure with USCIB 29.13/3 the pro-
posal could then be sent to the Board.

   ~~MR. POLYZOIDES doubted that resolution of the problem could be so
orderly.~~   USCIB: 5.5/64

   MR. PATTON stated that his principal is unwilling to increase the
quid pro quo, and recommends that the [   ] be told at a high level
that we do not propose to dicker further concerning it. He expressed
the opinion of OSD that we have already paid, many times over, for the
material we want, and our approach should be that instead of increasing
the quid pro quo we are prepared to withdraw support if the [   ] do
not come through with what we expect of them.

   MR. BATTEY commented that, through MDAP, such a large volume of
communications equipment has been made available to the [   ] that
they probably are not interested in any more.

   The brief ensuing discussion resulted in agreement by the members
to recommend USCIB approval of the enclosure with USCIB 29.13/3, sub-
ject to deletion of subparagraphs 2c, 2d, and all except the first 16
words of paragraph 3.

DECISION: (22 October 1954) USCIBEC noted the views expressed by the
Defense member, and agreed to recommend USCIB approval of the enclosure
with USCIB 29.13/3 subject to the following deletions:
   a. Paragraph 2c
   b. Paragraph 2d
   c. All except the first 16 words of paragraph 3.

   This item to be dropped from the agenda.
