MEMORANDUM FOR THE BRITISH CRYPTOGRAPHIC LIAISON OFFICER

SUBJECT: Release of AFSAM-7 to NATO Nations

Reference is made to your memorandum Pl/593, dated 26 February 1954, subject as above. I would appreciate it if you would inform the Secretary, Cypher Policy Board, that USCIB has approved in principle the release of the AFSAM-7 to NATO countries for national as well as international communications. I shall insure that he is informed if and when a decision is made to release any of the machines for NATO national communications. I am sure the Cypher Policy Board will understand that the USCIB action does not constitute a commitment to provide machines for national use by NATO nations.
