Mr. William F. Friedman
310 2nd Street, S. E.
Washington, D. C.

Dear Mr. Friedman:

After considerable thought, I feel that the meeting of the NSA Scientific Advisory Board, scheduled for 24-26 October, should be postponed until after 1 January 1958. This decision has been based upon considerations of a technical, fiscal, and policy nature. It appears that after the first of the year we will be in a better position to present to you our current scientific problems.

Sincerely,
