## REMARKS

If I remember correctly some of the things found faulty I deal with poor Comsec transmission procedures. I don't think Dr. Sinkov's answer meets the points in issue. See comment on that aspect.

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Mr. Friedman

FROM : Dr. Sinkov

SUBJECT: Changes in AFSA Organizational Manual

DATE: 29 April 1952

1. The changes in the Organizational Manual were designed to improve the coordination and collaboration of AFSA-02 and AFSA-04 in matters of mutual concern and specifically on the adequacy and security of AFSA communications.

2. It is my impression that the coordination and collaboration between AFSA-02 and AFSA-04 have improved considerably. Certainly I have heard no complaints and I believe they would have been called to my attention if they existed.

3. The problems of the adequacy and security of AFSA Communications are largely problems of research and development by AFSA-03 together with the necessary procurement of comsec devices. I think we are doing as well as can be anticipated with present equipment and personnel.
