

WAR DEPARTMENT  
ain  
OFFICE OF THE CHIEF SIGNAL OFFICER  
WASHINGTON

May 23, 1932

Mr. George A. Graham,  
Signal Corps Laboratories,  
Fort Monmouth, New Jersey.

Dear Graham:

Receipt of your letter of May 19, 1932 is acknowledged. I have no objection to letting you keep the original of the recently issued joint patent and I am enclosing it herewith.

I understand that you have taken down the model I saw and are trying to improve the stepping arrangement. I hope that this will be followed by a success, but I am beginning to have a little doubt as to the speed for practical operation that can be gotten with any arrangement of that sort. The working-out of such an arrangement appears to be much more difficult than any of us had anticipated.

M13471

With best regards, I am

Sincerely yours,

1 Enclosure.
