

IN REPLY
REFER TOWAR DEPARTMENT
^{ain}
OFFICE OF THE CHIEF SIGNAL OFFICER
WASHINGTON

July 28, 1930

Mr. George A. Graham,
Signal Corps Laboratories,
Fort Monmouth, New Jersey.

Dear Graham:

I have yours of July 18 and think that it will be the best plan first to send me the sketches and let me take up the matter in the office. It will be easier to let the proper persons decide whether to develop the thing in the laboratory or by developmental contract. I ought to have a fairly decent sketch to submit with my memorandum.

I hope that the hot weather is not proving too much for you, and it shouldn't if you are taking advantage of the ocean nearby.

Sincerely yours,

William F. Friedman

William F. Friedman,
Major, Signal Reserve,
Signal Intelligence Section.

*Dear Friedman -**All sketches enclosed. Please
let me know progress.**F*
