Frykas, Orea
Aug 21, 1966.

Dear Elizabeth and Will,
We were very happy to have your
letters of Aug 10, which were forwarded
to Orea.

Now first of all Annie and myself
want to send our very best wishes
to Elizabeth, on the occasion of her
birthday, and wish her all that
is good! That we all get older
and older is inevitable, but the
main thing is that we carry
on!

Then I - Doug - want to thank ~~you~~
for his letter, the first in several
years. I had feared that the long
silence could have meant that
some - for me unknown trouble -
connected with me, and I am
therefore happy to have a real
letter from you again. I think that
you have done the right thing
with your library. And in case
you should have any dupli-
cated you know that I would
be interested.

We have followed our usual
summer routine! After Sandhamn
where the weather was perfect,
Frykas - where we first had 12

REF ID: A2263328
days of heavy rains, followed
by a week with fine weather.
Migrid, Margareta & their children
were in Menton in July, up to
the 29th, when Karl Wilhelm
threw a big party to celebrate
his 50th anniversary. - They
came there, with 2 of Tho's
children to Figueas, where - in
contrast to Menton - they had
the miserable weather. They
spent there a nice week in Sundsvik
and have just now returned
to the U.S. - Annie & myself
expect to stay here until the
27th, and after that two weeks in
Sundsvik and Stockholm. We will
then return to Gyp, and from there
to Minsio, where we expect to get
fully settled towards the end of
September. We will write you from
there. - Now we send our best
regards and good wishes, and we
are always your old affectionate
friends Annie & Tho.

And thanks for Nilla's photo! Still
the Adolphe Meyer look!
