MITTAL SHEET
CHIEF SIGNAL OFFICER

su 2 Sept 44

TO	(Service, division, or organization)	(Location)	Initials	Date
	Chief C Branch	Security Section		
Subject:		(Branch or unit)	(Attention)	
File No.		2 September 1944		
FROM	(Writer's last name)	(Date)		
	(Service, division, or organization)	(Location)	(Telephone extension)	

File 888

Attached herewith translation of a message which, it is believed, deals with results of Japanese Cryptanalytic Activities on some Allied System in India.

It is requested that this Branch be informed of any conclusions you may reach with respect to inclosure.

S. Kullback
S. Kullback
Lt. Colonel, Signal Corps
SPSIB-2, Ext 321

1 Incl.
Translation of Message

Action 2

To: Chief B Branch, Attention: SPSIB-2 5 September 1944

Translation referred to in basic communication does not resemble any known U.S. Army cryptographic systems. It is possible that the material may refer to a Chinese system, British system or a locally produced system in China, Burma, India.

KON REQUEST MESSAGE #213, Parts 1,2,3,5,6,7,8,10,12,17

To -1G- TOKUSHU JOHO SHIBUCHO:

From -3G- SHIBUCHO:

1. Chart #1 of each volume of charts of 5073 MITSU

is as follows:

#0:

Line #1:	3	1	4	2	2	1	0	6	5	7
Line #2:	9	5	8	7	3	6	1	2	0	4
Line #3:	8	(?8?)	0	9	X	4	3	5	1	6
Line #4:	4	5	1	0	3	9	7	X	X	6

#1:

Line #1:	X	2	1	4	3	0	X	2	1	X
Line #2:	2	5	(?P)4	0	X	X	-	-	-	-

9. Series of 4-line squares running evidently from 0 to 9--however only those through 7 are available. The material is not applicable to any Japanese Army system and is presumed to be results of cryptanalytic solution in allied systems. This is substantiated by the sender and addressee as well as by the fact that certain portions of the lines are represented by X-marks which has been interpreted as showing incomplete recovery.
