Dear Stuart:

In response to an enquiry yesterday from the Signal Corps for "the name and address of Hagelin's representative in New York" I gave them your name and address. [redacted]

Hence, you may receive some enquiry soon, and I hope you get some business.

While writing you about this [redacted]

[redacted] I wrote him to that effect a week ago and I imagine that by this time he has received my letter, which was sent to Sundsvik, where he was due to arrive about the 18th of June. My own feeling is that we made the same mistake twice.

We are well here. John and Roberta's baby, as I am sure we told you, was a premature boy, taken by Caesarian section about two months ago. Both mother and baby are now doing very nicely. I think I also told you that I became a grandfather and a GS-18 on the same day. But I did not celebrate as some men do - being quite unemotional about both achievements.

Fondest greetings to Mabel and you.

Sincerely,
