~~TOP SECRET SUEDE - SECURITY INFORMATION~~

MEMORANDUM FOR

OGA

SUBJECT: Plain-text Processing

1. Among the subjects on which you asked that I write a paper was that of similarities and differences between  and AFSA organizations, methods and arrangements for processing plain-text traffic for the production of COMINT. Attached hereto, as an enclosure, is the paper I have prepared on the subject, which I hope will be adequate for your purposes.

2. It may be pertinent to add that there is reason to think that the importance of 

 This may not be true in all areas of the problem; only a careful review of the situation could serve to indicate what could now be eliminated or reduced in scale.

3. As before, I must state that the enclosure represents my personal views and is not to be regarded as an official OGA document.
